

Students: Skillfully trained, highly certified and ready for careers in Information Technology

NCU EdTech

SPEAKER PROFILE

Christopher ROSE

Christopher V. Rose is a Senior Lecturer in the School of Computer Studies at Excelsior Community College. Engineering, Technology and Teaching have always been his passion and these had led him to attain a Diploma in Engineering from National Tool and Engineering Institute. He later went on to pursue a Bachelor of Science Degree in

Computing and Information Technology, and later, a Post Graduate Diploma in Education from The University of Technology, Jamaica.

Mr. Rose holds a Master's of Science Degree in Computer Science from the University of the West Indies, Mona. He is the founder and Manager of the recently established International Professional Certification Centre at Excelsior Community College.

He is a certified E-learning trainer/facilitator and has conducted several workshops and presentations on the integration of E-Learning technologies in the classroom. Mr. Rose firmest belief is that a good education can shape lives, and he seeks to encourage educators to employ the best of 21st century technology, as they prepare learners to be productive in a global market place.
